TET Trade Delegation to SAUDI ARABIA

B2B Meetings

Riyadh | 19-20 March 2023

Participant Catalogue

White Goods 

Electronics 

Cables 

Electricity Production and
Distribution Equipments 

ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION

**ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION**

Technological Advantages

- › Efficient and up to date equipment capacity
- › Production flexibility
- › Production capacity in international standards
- › Strong industrial structure
- › Product diversity
- › Well trained and experienced work force

Geographical Advantages

- › Short time of delivery
- › Neighboring the largest markets in the world
- › Largely suitable for both land and marine transportation
- › Well developed logistics network

Market Advantages

- › An appealing conjuncture for both foreign and domestic capital investments
- › EU Customs Union Membership
- › Increased competitiveness in international markets
- › New employment opportunities
- › Start-up friendly legal arrangements
- › Increased domestic market demand

ABOUT TET

Turkish Electro Technology Exporters' Association (TET) is a semi-governmental agency which promotes trade activities of its members. It was founded on 1991 and it is subjected to Ministry of Trade.

We, as TET, are working for our 7.000 active member companies in order to improve trade volume and cooperation opportunities of electrical and electronics industries.

ACTIVITIES OF TET

CO-OPERATION

Developing co-operations with international institutions

FAIRS

Organizing and participating in trade fairs

DELEGATIONS

Arranging "Trade Delegations" & Organizing "Buying Missions"

MONITORING & REPORTING

Monitoring and providing sectoral data, reports and market research analysis

ALIMAR JENERATÖR

ABOUT US

As one of the leading generator manufacturers in Türkiye ,we produce diesel gensets from 1 kVA to 3500 kVA, with Perkins, Cummins, Doosan, Alimar, Mitsubishi, FPT, Scania, SDEC, Allis ,MAN, Ford brands of engine, Alimar, Leroy Somer, Stamford and Marelli brands of alternators, diesel and gasoline type portable gensets and light towers at our modern, 45.000 m2 factory in Türkiye. We export our products to 5 continents mainly Europe, Middle East, Africa, North America and Asia Pacific regions through our global dealer network.

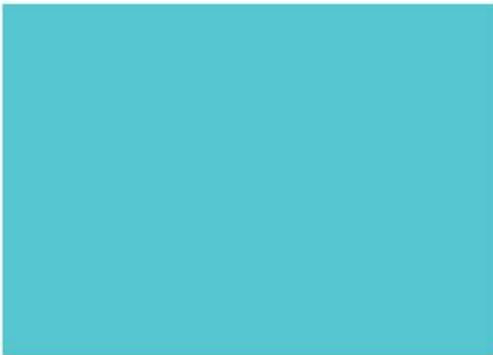

PRODUCTS AND SERVICES

Perkins, Cummins, Doosan, Alimar, Mitsubishi, FPT, Scania, SDEC, Allis, MAN, Ford brands of engine-powered generators with Alimar, Leroy Somer, Stamford and Marelli brands of alternators, diesel and gasoline type portable gensets and light towers.

ABOUT US

Beş A, one of the leading enterprises engaged in the design and manufacturing in the lighting electronics in Turkey, was founded in 1995. Beş A produce emergency lighting kits, emergency exit luminaires and emergency lighting luminaires. Having completed many innovative projects with its 27 years of knowledge and experience, Beş A responds to the needs of the emergency lighting products of the sector with its wide product range of up to 500 products in nearly 50 product groups. With its expert staff of 60 people, it operates in a 3000 m² closed area in Istanbul.

Beş A always aims to produce new technologies, carries out its mechanical and electronic designs in its own TÜV Rheinland certified R & D laboratory. Our company, which takes a significant part of its power from the principle of "sustainable development" and its employees working in line of this principle, aims to generate value for a bright future; and serves with the vision of being the leader in the regions where we operate with our products and services, and with the mission of making R & D and production in emergency lighting electronics. Our product's quality is registered by international certification bodies such as TSE, TÜV Rheinland and BSI. Our company has also ensured quality management systems with ISO 9001 standards.

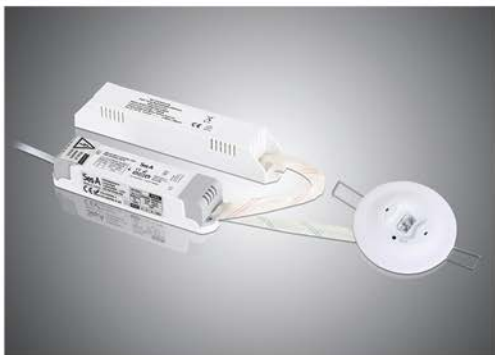

PRODUCTS AND SERVICES

- Emergency Lighting Kits
- Emergency Exit Luminaires
- Emergency Lighting Luminaires
- Emergency Lighting Control Systems
- DALI Emergency Products
- DALI LED Drivers

ABOUT US

Elektra Elektronik is founded in Istanbul 41 years ago to produce transformer. Today, we enjoy the position of being the leading company of Turkey in low-voltage transformer and reactor industry in terms of production capacity, number of employees and export volume. In addition to the pioneering products in transformer industry, we have been focusing on the production of advanced technology electronics since 2015. Today, we are present in many fields of the industry, both in Turkey and globally, with our transformer, reactor, grid filters, energy quality and power electronics solutions. As our international market share and business volume has consistently grown, we invested and scaled up our production line at our Istanbul-based factory in 2019, doubling up our capacity and reaching a production area of 10 thousand square meter. As a producer of the Turkey's first and single locally developed active harmonic filter, DynamiX, we, as Elektra Elektronik, offer the world advanced technology solutions in the field of energy quality. We are exporting locally-developed transformer and electronics to about 60 countries, primarily China, Spain, Germany, France and New Zealand, on a total of 6 continents including Africa, Middle East and South America. We are a solution partner to many enterprises and offer our European Standard-compliant products with the best price/performance available in the market. Besides Turkey, we have Elektra GmbH company based in Germany and sales offices in China and the USA.

PRODUCTS AND SERVICES

- Low Voltage(LV) Transformers up to 2000 kVA
- LV Harmonic Filter Reactors
- LV Shunt Reactors
- LV Line Reactors
- LV Sinusoidal Filters
- Discharge Reactors
- MV Shunt Reactors
- MV Current Limiting Reactors
- MV Harmonic Filter Reactors
- Active Harmonic Filter
- Passive Filter
- Static Var Generator (SVG)
- Thyristor Module and Capacitors

EPC ENERGY AND POWER CONVERSION SYSTEMS

ABOUT US

EPC Energy was established in 2006 by Ertugrul Sozmen, co-founder of Turkey's first Power Electronics Company established in 1977, together with experienced executives and engineers from this company.

EPC Energy has been growing rapidly ever since by combining this '48 years of know-how' with new Technologies. This proficiency in development and manufacturing ensures EPC Energy to rank among the top players in the industry.

EPC Energy is the first choice of many businesses from different industries due to its customized, client specific power solutions. We produce the fastest and the most efficient solutions while using the most appropriate products needed by our customers and business partners.

EPC Energy has strong local and international business partnerships. One of our major business partners is ABB. We are the exclusive distributor in Turkey of ABB power protection units; such as, UPSs.

Our priority is to sustain upmost customer satisfaction. EPC Energy will continue to grow by leveraging the accumulated knowledge and experience it has, while continuously adapting to new technologies, to produce efficient and reliable energy systems. And the synergy we create with all our customers will be the locomotive for our enthusiasm to achieve our goals.

PRODUCTS AND SERVICES

- Industrial Type UPS
- Battery Charger (Rectifier)
- Modular Battery Charger
- Inverter
- Static Transfer Switch
- Frequency Converter
- Bidirectional Converter
- Static and Servo Stabilizer
- Modular Inverter

THE APPLICATION:

- Power Plants
- Industrial Facilities
- Substations
- Automotive Industry
- Oil Rigs
- Natural Gas Pipelines
- Military
- Rail Systems
- Petrochemical Plants
- Telecommunication
- Datacenter
- Server Rooms
- Transformer Facilities
- Hospitals
- Transportation

FEDERAL ELEKTRIK

ABOUT US

Federal Elektrik was established in 1990 in Adapazarı. Growing in a short time, it became one of the leading manufacturers of Low Voltage Switchgear in the world. It was established on an area of 25.000m² with %100 domestic Capital. There are 4000 type Products and 35.000 different parts production in the facilities. Federal Elektrik is one of the biggest LV Switchgear Manufacturers with a wide range of LV switchgear products such as Fuses, Circuit Breakers, Transformers, Contactors, Fuse Switch Disconnectors, Load Break Switches, Relays and Gas Meters etc. more than 30 years of experience in the industry.

The Products manufactured in the facilities are manufactured in accordance with International American NSF quality assurance system as well as national ISO 9001:2015 quality assurance system. Increasing its quality to international standards in 1994, Federal Elektrik became the 70th institution receiving ISO 9000 quality certificate in Turkey. It has nearly 100 brands in Turkey and abroad, nearly 10 patents and nearly 200 design registration.

Federal Elektrik manufacturing all of the low voltage switchgear products in the low voltage Products range is manufacturing the products above the quality of IEC and EN standards determined by Europe and the World.

Through from institutionalization to technology, following and implementing the developments in every field, Federal Elektrik made a large investments in a very short time.

PRODUCTS AND SERVICES

- Molded case circuit breakers
- Air type circuit breakers
- Miniature circuit breakers
- Installation contactors
- Residual current devices
- Miniature circuit breaker boxes
- Surge protective device
- Current transformers
- Contactors
- Thermal overload relays
- Smart relays
- Power capacitors
- Cylindrical fuses
- Nh fuses and bases
- Fuse switch disconnectors
- Load break switches with and without fuse
- CAM switches
- Measurement devices
- Relays
- Motor protection switches
- Easypan distribution boards
- Modular main distribution panel boards
- Harmonic filters / shunt reactors
- Electronic ballasts
- Natural gas meters
- Subscriber information management system
- Automatic control unit of heating systems for passenger coach
- BMC
- Plugs & sockets & combination boxes
- Cable lugs and tools
- Insulators

FEWA PUMP SYSTEMS

ABOUT US

HÜRPOMPA was founded in 2002, Providing the most economic and environment friendly service to fulfill our customers' expectations is at the core of our values. With this vision in mind, we have created FEWA brand in 2012 to spread our experience in deep well drilling, water compression, agricultural irrigation and service operations by manufacturing plunger pump, industrial centrifugal pump and water booster domestically. Considering the scarce water and energy resources, we aim to manufacture our pumps in the most effective way to provide "low cost, high efficiency" and "low total cost of ownership" for our customer. With an environmentally conscious focus, we perform R&D activities to find ways to solve our customers' water and system problems in a fast and influential way. With FEWA, we will maintain our vision of providing quality and efficient pumps for all over the World.

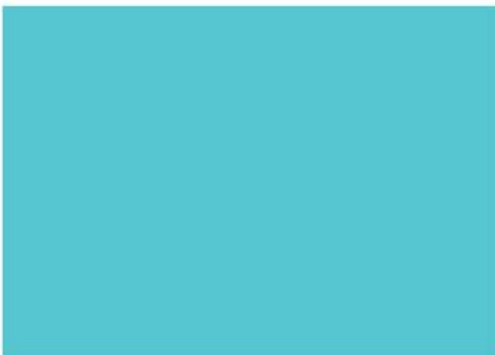

PRODUCTS AND SERVICES

- Submersible Drainage Pumps,
- Domestic Pumps, Industrial
- Pumps, 4" and 6"-8"-10"
- Submersible Pumps and Motors

ÖREN CABLES

ABOUT US

Ören Kablo entered into cable manufacturing sector with the manufacture of coaxial cables in 1979. Making up its principle to determine its strategies by continually following up the demands of the customers and development of its competitors taking place in the coaxial cable market and segment since its establishment, Ören Kablo has always succeeded to make the best use of advance technology in product and service production to provide customer satisfaction and loyalty in rapidly changing business world.

Carrying out its production activities in its modern manufacturing facilities located in Silivri Ortaköy Industrial Zone, Ören Kablo realising manufacturing wide range of products such as cable TV, digital satellite, data cables, interactive TV cables, CAT5, CAT6 LAN cables, signal command cables and fire warning cables; and at the same time, offers to the use of its customers the low fume and flame retarding versions of "halogen free" cable, which is also known as "fire proof cable" in the sector, for all the products taking place in this range. Having a production capacity of 58 million metres coaxial cable annually, Ören Kablo initiated Physical Foam PE insulated cable production in the beginning of 2004 and currently meets 70% of Turkey's digital broadcasting cable need by itself with the Gas Injection Skin/Foam/Skin triple injected Physical Foamed Polyethylene Extruder manufacturing line investment. Ören Kablo also exports to 36 country now.

PRODUCTS AND SERVICES

Ören Kablo's product range includes low current cables which could be seen under the 854420 and 854449 HS Codes.

More specically , our cables could be seen as the list below;

Coaxial Cables for Cable TV, internet applications and satellite master antenna TV applications (Priority Product) CCTV and Security Cables

(8544.20.00.90.19)

Data Cables (8544.49.95.00.00)

Indoor Telephone Cables

(8544.20.00.90.11)

Fire Resistant and Alarm Cables

(8544.49.91.00.00)

Control Cables (8544.49.95.00.00)

PAMİR LIGHTING

ABOUT US

Pamir Lighting is dealing with manufacturing of technical lighting fixtures and accessories for both whole and project based sales. In majority, currently exports to European and Middle East countries.

Established in 1974, it was manufacturing electrical equipment and since 1990, it shifted production towards the lighting sector and became a specialist in this field.

It ranks today among the most performing Turkish companies in the sector, which offer a large array of products.

We do use the highest possible quality components on our products and provide the shortest delivery terms with competitive prices to our customers.

We are able to conceive and offer products which combine both aesthetic and competitiveness, due to the fact that all the different stages-from conception to production are done in our factory.

We can adopt the specifications of our products to the requirements of your project.

Every order -be it small or large- gets our personal attention and care down to the smallest details.

Let's light up together!

PRODUCTS AND SERVICES

Range of Products:

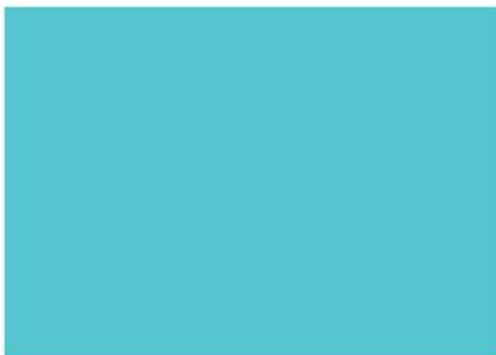

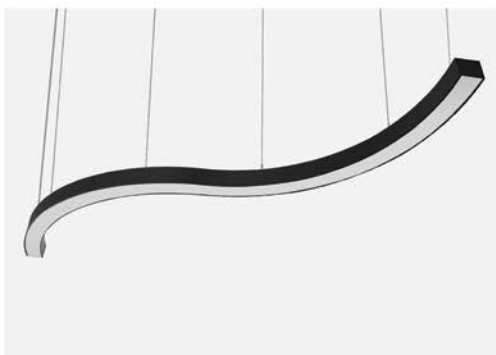

- LED and T5 Fluorescent lighting fixtures for offices and shopping places,
- IP67 LED Floodlights & High bay lights,
- IP65 LED and T5 Fluorescent High bay lighting fixtures,
- IP65 LED and T5, T8 Fluorescent Waterproof lighting fixtures,
- IP65 LED and T5, T8 Fluorescent Ex-Proof lighting fixtures,
- Wallwashers
- Downlights, track lights,
- Glop lamps,
- Motion sensor,
- Motion sensor lamps.

We have ISO:9001, TSE (Turkish Standards Institute) and CE certificates. We do use the highest possible quality components (Osram, Tridonic, Lumileds etc.) in our products.

ABOUT US

Simfer is one of the leading Turkish manufacturer of home appliances with exporting to more than 150 countries and is placed in top 500 industrial corporations in Turkey with a 6 million unit annual production capacity.

Simfer has a competitive technology-oriented philosophy, and believes that it is important to continuously evaluate new business opportunities. In this regard Simfer now has 3 different production facilities with totally 215.000 sqm production site since the company opened its cooling factory in 2015, and increased employee numbers to more than 2000. Simfer offers high quality products that are suitable for the different cuisines that can be found all around the world.

The vision of Simfer is to be among the top 10 most preferred brands with design-driven models in its segment. Based on its dedication to design Simfer was honoured with the award of "First place for the highest increase in patent submission" organized by The Turkish Patent Institute. In order to increase brand awareness and investment in global market, The Simfer brand was included in Turquality Brand support program by the Ministry of Trade in 2016 and Turquality program in 2021.

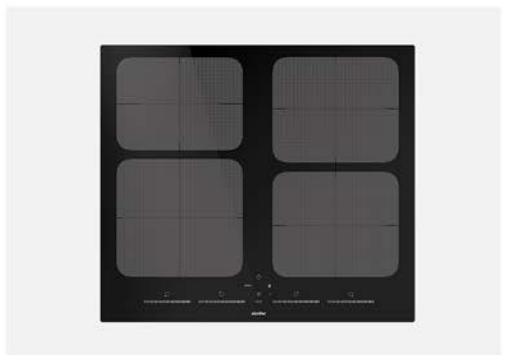

PRODUCTS AND SERVICES

- Freestanding Appliances (Cookers-Hobs)
- Built-in Appliances (Ovens-Hobs-Hoods)
- Cooling & Freezing Appliances

ABOUT US

TEM TEKNİK A.Ş established in 1991 to produce industrial products for the electrical equipment industry.

Our experience has placed TEM as one of the leaders of the market with our capacity to develop new products and our attention on following the growing market necessities.

Our range of products includes CEE NORM plugs and sockets, single phase plugs and sockets designed according to different standards, rubber plugs and sockets, combination boxes available on request, sealed thermoplastic junction boxes, plastic distribution boards, modular aluminum multi-sockets, cable pulleys etc.

TEM, becoming a global brand, is now available in several countries. For this purpose, we are offering you solutions, in conformity with divers standards, by examining customer requirements with a global perspective.

Fully aware of the significance of our job in the comfort and safety of people, we are determined to extend our range and to improve the quality and safety of our products. Our Research and Development department renew their work with this vision.

Our main target is to continuously improve our quality by attaching importance to our quality control operations and to respond efficiently to customer requirements. In this direction, our certificate operations are proof of the trust in us. Besides the trust in our products, the solid structure of TEM Company is also certified: EN ISO 9001: 2015.

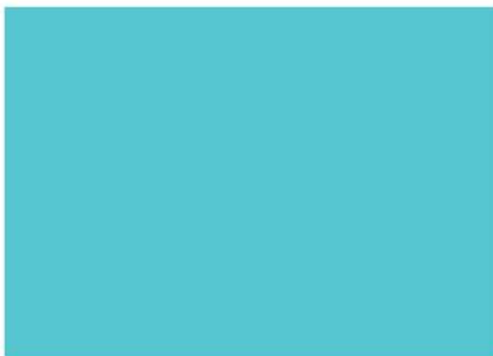

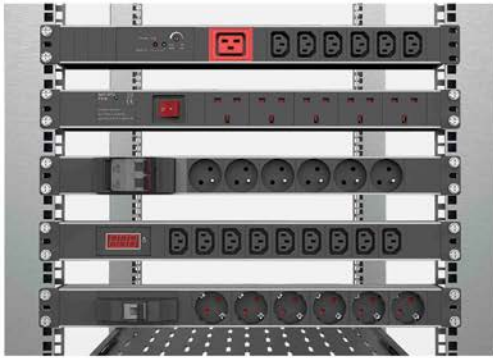

PRODUCTS AND SERVICES

- Our company manufactures various sockets and electrical panels used in industry and offices.
- Data Centers, Furniture industry, Machinery Manufacturers, Individual Factories constitute our main customer portfolio.
- Socket Strips, PDU - Aluminum or Plastic Power Strips, Plastic Enclosures, Thermoplastic junction boxes, CEE NORM plugs and sockets, Socket combination boxes, Distribution boards, Cable Reels, Modular Sockets.

TÜMPA ELEKTRİK

ABOUT US

TÜMPA ELEKTRİK established in 1990 based on low voltage electrical equipment's and lighting materials.

Tumpa elektrik is a powerful business partner of the worldwide brands and manufacturers in turkey such as ABB, Siemens, Chint, Philips, 3M, Cata, Viko by Panasonic, Ledvance, Prysmian cable and more.

Tumpa elektrik provides direct commercial services both for 3000+ domestic partner and 50 foreign countries in the field of low voltage equipment, lightings, copper and cable markets.

Tumpa elektrik operates its commercial facilities from 10 different office & warehouse among turkey in a land of 15000 m² warehouse capacity. The progress of all operations in the company is controlled by the advanced software network until its delivery.

PRODUCTS AND SERVICES

- Low Voltage Products: Siemens
Abb Chint
- Lighting Products: Philips Osram
Panasonic
- Cable Products: Prysmian Group

ABOUT US

Ünka Kablo is one of the leading manufacturers of control and instrumentation cables in Turkey since 2005. We are exporting 98% of our products to more than 30 countries and mainly to the biggest distributors in the UK, Europe, Balkans and the Far East. We believe in continuous improvement and customer oriented service approach and our company is well known for its high quality products, quick deliveries and competitive prices.

PRODUCTS AND SERVICES

Control Cables (300/500V, 0,6/1kV):

- YSLY & HMM (HSLH)
- YSLYSY (YSLYAY) & HSLHSH
- YSLCY, YSLYCY & HMM-C

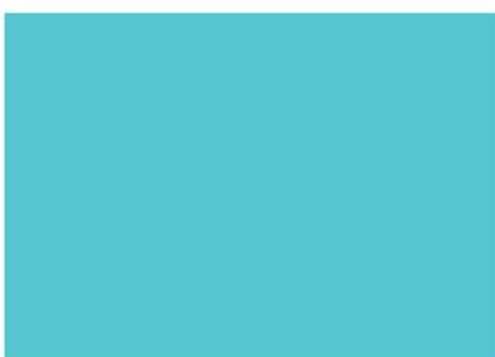

Data Cables:

- LIYY & LIHH
- LIYCY & LIHCH
- LIYCY-TP & LIHCH-TP
- LIY(St)CY & LIH(St)CH

Instrumentation Cables:

- BS5308
- EN 50288-7 (RE Types) both PVC and LSZH, with and without armour

ÜNTEL KABLOLARI

ABOUT US

ÜNTEL KABLO, one of leading cable manufacturers in the world was established in 1972, Turkey. ÜNTEL is also able to produce tailor made products for special purposes. Today these products are exported over 70 countries on six continents. By the end of 2009, ÜNTEL finalized the investment of a new high-tech plant near Istanbul. Now continues her operations on 43.000 m2 land space with 32.000 m2 closed area. By having 3.000 tons copper drawing and 4.000 tons different type of compound processing capacity, ÜNTEL produces 30.000 tones of cable per year. By means of new factory building, state of the art machines and unique ERP system investments ÜNTEL aimed absolute customer satisfaction.

PRODUCTS AND SERVICES

ÜNTEL's power and instrumentation cables supplies energy for industries which requires experience like marine, offshore, mines and tunnels, airports, railways and have been used in industrial ways such as heavy-duty rubber drum reeling cables, welding cables, control cables and fire resistant cables.
